BACKGROUND - CariSECURE

CariSECURE is one of three components of the broader USAID Youth Empowerment Services (YES) project which seeks to reduce youth involvement in violence and crime in the Eastern and Southern Caribbean.
BACKGROUND - CariSECURE

**DATA COLLECTION**
Create standardized & disaggregated crime data collection tools and systems to catalyse reliance on valid, reliable and comparable citizen security data.

**DATA ANALYSIS**
Strengthen national capacities to conduct evidence-based analysis of crime and violence data to inform national citizen security policy-making.

**EVIDENCE-BASED DECISION MAKING**
Support the development of data-driven prevention and response policy tools that will support targeted interventions to reduce the crime and violence.
BACKGROUND - PRMIS

PRMIS (Police Records Management Information System)

- Workflow management
- Web application
- Compatible with (laptops, desktops, tablets, etc.)
- Modern User-Friendly Interface
- Flexible User Access Controls
- Multilingual support
- Documents/Files storage
- Data Sharing between police stations

...Designed for Police by Police...
THE GRENADA EXPERIENCE

...Starts with strong leadership...
…the CariSECURE project seeks to strengthen citizen security by promoting a culture of evidence-based policymaking and program development to address the root causes of crime and violence. In a Grenada context, the CariSECURE PRMIS system has helped us to build stronger evidence-based and data-driven approaches to Policing. We support the view that the system promises a new era of advancement in many areas, including improvement in productivity, investigation, detection, and of course prevention strategies.”

- Commissioner Martin
Leadership - Empowerment

Vision

Empowerment

• Readiness Manager
• Readiness Management Team

Partnership
Leadership - Partnership

• Stakeholder Engagement
  o Requirements Gathering Workshops
  o User Acceptance Testing
  o Piloting PRMIS

• Bilateral Support
  o Refresher Webinars
  o Ad-hoc support
Communication

- Radio Interviews - public awareness
- Weekly Zoom sessions – sensitization stakeholder buy-in
- Presentation to Senior Management
- Complied list of FAQs
- Customized User and Administrator Manuals
The Implementation Journey - Training

Manual Weekly/Monthly - A thing of the past!

1. The Report Module is designed to create reports/statistics according to the type of offence committed (crime reports/incidents/traffic infringement). Each station/department will be able to generate reports using a specified criteria for a period of time selected by the user.

WHAT INFORMATION IS AVAILABLE THROUGH THIS MODULE?

1. POLICE ORGANIZATION STATISTICS REPORT:
   This report displays information about total incidents, traffic infringements, and crime cases within your organization and their current status.

2. PERSON(S) REPORT:
   This report displays statistics regarding persons involved in a traffic infringement, crime case or incident report according to specific search criteria, such as age, gender, etc.

3. TRAFFIC MANAGEMENT REPORT:
   This report displays a breakdown of total traffic infringements (including accidents and tickets) according to period/status/cause of offence etc.

4. INJURY STATISTICS REPORT:
   This report displays a breakdown of the total incident/cases/traffic infringements by injury (severity) for a select period.

BENEFITS TO PRMIS REPORTING:

Using the reporting tools made available on PRMIS will allow officers more time to investigate matters and develop strategies to mitigate criminal activities in their jurisdiction.
The Implementation Journey - Deployment

**Pilot**
- 3 locations
- Feedback for developers and trainers
- Built greater awareness

**Phased Approach**
- By Division
- Refresher Training
- On-The Job- Support
The GRN Crime Analysis Dashboard (still under development) will take data from police stations utilizing PRMIS relating to instances of offences and sub-offences, map them geographically and compare this data to previous periods to allow hotspot and trend analysis.
The Journey Continues
